Review

“Changing Contours of Work: Jobs and Opportunities in the New Economy provides numerous insights into the new world of work and is a prolific source of material for class discussion, further research, and written assignments.” (Teaching Sociology)

“Changing Contours of Work is an engaging text that is of significant value in courses on the sociology of work.” (Journal of Family Theory & Review)

“With a captivating dose of realism and critical inquiry, the authors have done an excellent job of introducing some of the most troubling labour market issues of our time. It is an excellent source for upper level undergraduate students and those trying to make sense of recent transformations in the world of work and beyond.” (Work, Employment and Society)

“Changing Contours of Work inspires students to acquire a sociological imagination in the way they view the labor force, understanding the way that personal troubles with income or employment are linked to public issues.

Changing Contours of Work provides a thorough overview of the structure of the new economy and the way opportunities and rewards are unequally divided across the lines of class, gender, and race. Perhaps one of the greatest attributes of the book, however, is the ease by which Sweet and Meiksins integrate classical sociology with contemporary studies of stratification in a way that is extremely accessible to undergraduate students.”

OPPORTUNITIES IN THE NEW ECONOMY (SOCIOLOGY
FOR A NEW CENTURY SERIES) BY STEPHEN A. SWEET,
PETER F. M PDF**

In the Third Edition of *Changing Contours of Work: Jobs and Opportunities in the New Economy*, Stephen Sweet and Peter Meiksins once again provide a rich analysis of the American workplace in the larger context of an integrated global economy. Through engaging vignettes and rich data, this text frames the development of jobs and employment opportunities in an international comparative perspective, revealing the historical transformations of work (the “old economy” and the “new economy”) and identifying the profound effects that these changes have had on lives, jobs, and life chances. The text examines the many complexities of race, class, and gender inequalities in the modern-day workplace, and details the consequences of job insecurity and work schedules mismatched to family needs. Throughout the text, strategic recommendations are offered to improve the new economy.
