You must like to through this.

DICCIONARIO DE NEUROCIENCIAS. EL PRECIO ES EN DOLARES BY FRANCISCO MORA; ANA MARIA SANGUINETTI PDF

Una gran variedad de disciplinas, incluso algunas de las que tradicionalmente se han mantenido apartadas de este campo, está buscando la respuesta a ciertas preguntas en el conocimiento del funcionamiento del sistema nervioso. En consonancia con este fenómeno, tanto en las aulas universitarias como en el campo investigador ha ido creciendo la necesidad de hallar respuesta a toda suerte de cuestiones conceptuales en torno a dicha materia. Éste es el motivo que ha conducido a Francisco Mora y Ana María Sanguinetti a reunir en un solo libro términos y conceptos necesarios para el estudio del sistema nervioso en disciplinas básicas y clínicas. El Diccionario de neurociencias responde a una idea de síntesis pluridisciplinar que busca, más que la definición exhaustiva de todo término aplicable a la bioquímica, neurología o fisiología, servir de ayuda inicial, práctica e inmediata. Asimismo, será indudablemente de gran utilidad para los estudiosos o interesados en las neurociencias tanto el vocabulario de términos en inglés con sus correspondientes traducciones al castellano, como la actualizada bibliografía recopilada en el mismo, incluidos ambos al final de la obra.
