From the Publisher

Blackwell Publishing is delighted to announce that this book has been Highly Commended in the 2004 BMA Medical Book Competition. Here is the judges' summary of this book:

"An excellent up-to-date comprehensive and practical text book dealing with all aspects of paediatric hepatobiliary disease. It will be useful to both generalists and specialists as it is clinically focused with a problem-solving approach and should be useful for day-to-day as well as more esoteric clinical problems. I found it useful in my general paediatric practice and my trainees have also found it useful. It is very practical with a diagnostic approach and lots of tables and clinical pathways to follow when confronted with day-to-day clinical problems. I have road-tested it in real life with good effect. It will become a standard text book in paediatric liver units."

From the Back Cover

An extremely practical text, this new edition of Diseases of the Liver and Biliary System in Children covers the essentials of paediatric hepatology. The range of material is wide and has been revised and updated to include the latest advances. Many helpful algorithms and tables are included and the references at the end of each chapter have been carefully selected so as to provide the most up-to-date information available. A concluding section comprising some 100 carefully annotated plates, completes this text.

Containing the contributions of 23 internationally acclaimed authorities, active both clinically and in research, the book provides an essential guide to the diagnosis and management of paediatric liver diseases, both common and uncommon for all those involved in the care of the child with liver disease. Diseases of the Liver and Biliary System in Children has become THE REFERENCE of choice for the paediatric gastroenterologist, hepatologist and surgeon.
