College required text

Used at Western Washington University in 2010. If corporate finance is interesting to you, you will probably like this book. If the words "corporate finance" put you to sleep, you will probably not like this book. I tend toward the sleepy side of that spectrum, so this book was just 'meh' to me - but it did explain the material and help me pass the class, so I can't fault it too much.

Like most people, I rely on honest product reviews to make purchase decisions. Because the experience of others has been so helpful to me, I try to provide honest, helpful reviews to assist other shoppers in selecting the right products for them. I hope my review has been helpful to you!
