she won't lie to you

By A Customer

Helen Gurley Brown has long been the bane of certain feminists, probably due to a misperception of her intent. Her message is this book is not "find-a-man, find-a-man, find-a-man," but rather "find your life," and make as much of it as you wish. the methods she proposes for carving our that life can be exhausting to contemplate, but they make you feel like you have some control over your own destiny, which is what feminists have been fighting for. so forget that she wears makeup and pretty clothes and diets rigidly, if that bothers you, and focus on the self-determination she espouses instead. great book for when you feel like a rudderless fat slob.

Gave me the affirmation of my confidence: Found my husband

By E.D. Emerson

I was a college student working in a library when this book came out. I read it and realized that if I could take the first steps instead of waiting to be approached, I might connect with the type of man I wanted to marry. I stuck my neck out and approached a man who seemed to be what I was looking for: that was in 1983. We were married exactly one year later! Need I say more?
