Not just a guide, but an excellent history source!

By R Helen

I actually found this guide to be very interesting. I didn't know that the Holocaust Memorial was built above Goebbels' bunker (and that there was a possibility to incorporate it in the museum!) or that there is a "Swastika Forest" on the outskirts of Berlin! (This entry made me laugh out loud!) But these are just a two of the many interesting tidbits of history and information that this guide presents. It is also an excellent guide for pointing out the major Third Reich sites across Berlin and its surroundings. The maps are decent and the background information excellent. Many of the sites I didn't know about, although I lived in Berlin for 7 years and have visited many times besides that. It is, of course, slightly outdated as it was printed in 2007, but it is worth getting anyway because most of the sites remain the same. I can't wait to use it on my next trip! Definitely would recommend.
