Long and boring

By Amazon Customer

Author repeats himself to much and goes down to many rabbit trails!

12 of 15 people found the following review helpful.

Lou Cannon truly understood Ronald Reagan

By Karen Spencer

I have a unique perspective about Ronald Reagan. My father ran all his campaigns for Governor of California and President in 1980 and 1984. Many others have claimed that title. However, President Reagan always know my Dad understood him well and relied on his policial sense. That is because for personal reasons Dad ran President Ford's race against Reagan in 1976 and defeated Reagan. The only defeat Reagan faced.

My point of this story is that Lou Cannon was on the story every step of each campaign, California and Washington, DC. He was trusted by all those trusted by Ronald Reagan. He understood Reagan's core values, he understood that that President was one of us. However,Lou also understood that Reagan was at peace with himself. President Reagan believed all people should be free. He didn't believe that government should tell us what to do with our freedom. This freedom came with a price -- personal responsibility. It was a simple concept to President Reagan. Lou Cannon captures all these, and much more, very important points about President Reagan.

Many people have attributed certain political beliefs to President Reagan. Some are true, many are not. Lou helps straighten these out.

Reagan is already rated the sixth greatest President. For that reason alone, Lou's book is a must read.

THE book on the Reagan Presidency

By Jack Lechelt

Like Clinton and GW Bush, Reagan will be argued over for decades to come. Did he win the Cold War? Did he bust the budgets sending us into mountains of debt? Did he bring about the great economic times of the 1980s? Did he just put a smile over the real problems of regular Americans? And what about Iran-Contra? Your answers depend on your political ideology. Both conservatives and liberals will stretch, bend, and lie to make Reagan's achievements or dissapointments match up with their ideological bent. These wing-nuts will

ignore tons of facts that argue against their position. This will also be the case for Clinton and GW Bush. So it is.

Cannon, however, has written the single greatest book on the Reagan Presidency. Unlike the liberals who took pot-shots shortly after Reagan left office, or the conservatives who are trying to rewrite the past with overly glowing accounts, Cannon wrote a book whose format should be followed for every president after they leave office: thoroughness and fairness. Cannon, who covered the Reagan White House for the Washington Post, was so much more than just a journalist when he wrote "Role of a Lifetime." He was part political scientist, part psychobiographer, a small part memoirist, and, indeed, he still didn't forget the writing skills of a well-trained journalist.

If you're a hardcore conservative or liberal, you will not love this book. It doesn't kiss Reagan's ass, nor does it only tear him apart. The man did some good and some bad in the White House. Cannon does as good a job as possible in being fair about it.
