Very helpful Book!

By Iya Vasquez

It can be embarrassing to suffer from erectile dysfunction to be a healthy young man, and not a matter of luck, but it unfortunately sometimes our metabolism or genetics plays against us, this book offers advice for help, but we recommend you go to a doctor to check you, there are also natural measures that can be used here and give us various treatments for the problem, there are different forms, specific foods, pills, supplements, which can really be the final solution to the problem of dysfunction in the question this book perseveres, but the cost of changing bad lifestyle habits such as smoking or drug use, this harms the body in many ways and on several occasions are responsible for causing this problem, this book should be able to recover sexual strength and please your partner.

By Rose Johnson

It's not that me or my husband is facing the problem but I got this book because I was curious about it and someday it might happen to me too or my husband. And when it does, at least we'd know how to handle it.

Reading this book was interesting and I've learned so much about different kinds of sexual dysfunctions and the causes of each. Most especially, I've learned about the treatment, in case I get it so this would come in handy in the future.
