Good bark weak bite

By LK

I was extremely excited to read this book on Wattpad and was looking forward to the same level of excitement the first few chapters held however I was disappointed on buying the book. I think the writer is

good and has a lot of potential but the zing felt like it died after the first few chapters. I hope the author continues to write but my recommendation would be to continue the magic. Towards the middle and end of the story I wasn't sure why I was even reading it. Apply the same magic you had in the beginning of the story. Good luck!

Intriguing in Theory, Disappointing in Practice

By sdshop000

I really wanted to like this book. Really. The description was promising, and with all the good reviews I had such high hopes.

But, sadly, there was just so much wrong with this story. The typos and really choppy, unclear writing was too much. I think that the author had a great story in mind, but just fell flat in execution.

I love this book, I started reading it on Wattpad, where it was first published, and I fell in love. It's amazing and I don't regret purchasing it. I recommended it to anyone who likes these kind of stories. It's amazing and I hope that if some other reader reads it, that they will think the same!!
