WHAT YOU REALLY NEED TO LEAD: THE POWER OF THINKING AND ACTING LIKE AN OWNER BY ROBERT STEVEN KAPLAN PDF

WHAT MAKES A LEADER? CAN YOU REALLY LEARN TO LEAD?

You might believe that leaders are born, not made. Perhaps you think that you need to hold an important job to be a leader?that you need permission to lead. Leadership is one of the most important aspects of our society. Yet there is enormous disagreement and confusion about what leadership means and whether it can really be learned.

As leadership expert Robert Steven Kaplan explains in this powerful new book, leadership qualities are not something you either have or you don't. Leadership is not a destination or a state of being. Leadership is about what you do, rather than who you are, and it starts with an ownership mind-set. For Kaplan, learning to lead involves three key elements:

- Thinking like an owner
- A willingness to act on your beliefs
- A relentless focus on adding value to others

Kaplan compellingly argues that great organizations are built around a nucleus of people who think and act with an ownership mind-set. He believes that leadership is not a role reserved only for those blessed with the right attributes or situated in the right positions of power. Leadership is accessible to each of us?today. It requires a process of hard work, willingness to ask questions, and openness to learning.

This book aims to demystify leadership and outlines a specific regimen that will empower you to build your leadership skills. Kaplan tells real-life stories from his own experience of working with various types of leaders seeking to improve their effectiveness and make their organizations more successful. He asks probing questions, provides exercises, and suggests concrete follow-up steps that will help you develop your skills, create new habits, and move you toward reaching your unique leadership potential.

What You Really Need to Lead will help you develop your capacity to lead by unlocking your power to think and act like an owner.

An excellent book for anyone striving to be a great leader.

By Mark T.

This is another great book on leadership by Robert Kaplan. His previous books have been extremely helpful to me personally and professionally and this one takes the challenge of "how to be a great leader" to the next level. In particular, I find the format and in depth listing of specific steps very useful. As the leader of a company, I am always looking for effective ways to lead and improve the communication I have with my employees. *What You Really Need to Lead*, highlights the necessary tools I need to follow as I mentor other leaders and department heads that report to me. I think anyone striving to be a great leader will want to add this book to their library.

Reflecting on Leadership

By Coen Bester

Often we need words of encouragement from a mature person with practical advice. Leadership can become very complicated in our heads. Often because we lost cognizance of the key building blocks. This book reminds us of the power of simple truths about leadership.

Concept correct. Book terrible

By Kindle Customer

Reading the title is enough. The book offers little insight beyond the title line. There just isn't that much there.
