And guide with the title Willy's Stories By Anthony Browne is the recommendation now.

## Review

Many children will be familiar with at least some of the stories, and they will quickly learn about new ones...Browne's project provides a doorway into these sometimes intimidating works.

—Publishers Weekly

This chimp is a worthwhile companion; young readers will no doubt answer his call.

—Kirkus Reviews

The book's distinguished design matches the weight of the centuries of stories found within, from the marbled endpapers to the decorative initial caps leading off each episode from Robinson Crusoe, The Tinderbox, The Wind in the Willows, and more.

—School Library Journal

Browne's paintings are in rich, full color and filled with charming visual hints, such as books that appear in unusual places, which emphasize the transformative power of imagination. A good choice for read-alouds, particularly at a library.

Anthony Browne offers a glimpse at ten classic tales with the help of a library-loving chimp.

Every week, Willy walks through an ordinary-looking set of doors and straight into an adventure. Where will those doors lead him today—to a mysterious desert island with footprints in the sand? Down a deep, dark rabbit hole full of curious objects? Or perhaps aboard a pirate ship to stand face-to-face with Captain Hook? This book revisits well-known stories from:

Robinson Crusoe

Treasure Island

Robin Hood

The Tinderbox

Peter Pan

Alice's Adventures in Wonderland

The Wonderful Wizard of Oz

Rapunzel

The Wind in the Willows

The Adventures of Pinocchio

Anthony Browne's captivating illustrations, starring his trademark primates, pay tribute to the library and the wonders within.

Story starters from classic literature (and gorgeous illustrations)

By D. Jennings

Excellent storytelling prompts from classic literature, accompanied by beautiful, detailed illustrations. Willy (who is an ape) imagines himself in classic stories like Peter Pan, Treasure Island, Robin Hood, The Wind In The Willows, the Wizard of Oz etc....he describes the scene and the characters (who are also apes), lays the foundation and then asks the reader "what do you think happened next?" The child reading this may want to make up a wacky alternate version of the story, or it might cause him or her to want to hear the original, or possibly both. It's a wonderful storytelling exercise, and I do love the combination of vintage classics and modern language (Friar Tuck calls Willy a WIMP...made me laugh).... the only caveat I would note is that in general, picture books are aimed at ages approximately 4 to 8, and this one is really more suited for a child of 7 or 8. There are two or three longish paragraphs on each page of text, and the language may be too complex to keep a preschooler interested.

Discover the Adventure

By tvtv3

Willy is a young ape and each week he walks through a set of magical doors that allow him to go on some amazing adventures, *WILLY'S STORIES*. On the following pages after a brief introduction, Willy describes some of these adventures and ends each section by asking a question of the reader. At the end of the book the reader discovers (if they haven't already guessed) where the doors Willy walked through led and how Willy is able to go on each of these adventures. As it turns out, Willy visits a library and each of the stories he tells are books he checks out and reads. The illustrations are engaging and humorous. I enjoyed the book and trying to figure out which stories Willy was describing. I actually was introduced to a book I had never heard of before (*THE TINDERBOX*). Overall, *WILLY'S STORIES* would be a good book to read aloud to a group of children or a fun book for a slightly older reader (2nd grade level).

Came for the gorillas, stayed for the whimsy

By py34tt

*Willy's Stories* is a phenomenal example of inter-literary references done right. Each page boasts a full-color illustration depicting pivotal moments from classic children's literature. Except, instead of the original human characters, gorillas are featured. Because gorillas, obviously. The thematic familiarity of classic works juxtaposed with this whimsical adaption makes for a very refreshing, interesting read.

The only aspect I am not really crazy about is the absence of the fourth wall, which I think was implemented rather clumsily. At the end of every story, the audience is specifically invited to speculate what happens next in the story, e.g. "what do you think happened then?" In this manner, it's excellent for specifically assigning

writing prompts to kids. Since we home school, this aspect of the book will be of utility as our kiddos get older; I just would have preferred the prompts implemented with greater finesse, à la *Ballad* or *The Whisper* - both of which encourage audiences to fill in story gaps and provide their own continuation, respectively, but without any of the characters addressing readers directly. Just my personal preference for that one.

Age-wise, this was very well-received by my 4-year-old. He was not familiar with all of the stories referenced so, instead of speculating about the stories along the same veins as the original classics, he tied each one to its predecessor. E.g., when asked about the nature of the footprint from *Robinson Crusoe*, he decided it was probably one of the pirates from the subsequent *Treasure Island* page, etc. So, do not let something as silly as age recommendations deter you from this purchase.
